**Data Documentation**

**I. Dataset/atlas content features**

**i. Abstract**

The main contents of the Hot-dry Wind and High Temperature Disaster in Beijing are the hot-dry wind and high temperature disaster since 1960, including the date of the hot-dry wind and high temperature disaster in the city of Beijing, etc.

**ii. Elements (content fields)**

<table>
<thead>
<tr>
<th>Data name</th>
<th>Item (field)</th>
<th>Field name in Chinese</th>
<th>Field measure unit</th>
<th>Field code description</th>
<th>Remarks</th>

</tbody>
</table>

**iii. Temporal cover**

The time of this dataset is 1960.5-2018.6.30

**iv. Spatial cover**

Beijing urban area.

**II. Subject/industry scope of dataset/atlas**

**i. Subject scope**

170 Geosciences  17015 Atmosphere Science  1701535 Climatology  
560 Civil Engineering and Building Construction  56015 Basic Disciplines of Civil Engineering and Building Construction  5601530 Architectural Meteorology  
560 Civil Engineering and Building Construction  56055 Municipal Engineering  
570 Hydraulic Engineering  57065 Flood Control  5706510 Flood Control  5706520 Flood Prevention  
610 Environmental Science and Technology and Resource Science and Technology,  61010 Basic Science of Environmental Science and Technology,  6101025 Environmental Meteorology.

**ii. Industry scope**

F Transportation, Warehousing and Postal Services, 51 Railway Transportation Industry 52 Road Transportation Industry  53 City Public Transportation Industry  54 Water Transportation Industry  55 Air Transportation Industry  
M Scientific Research, Technical Services and Geological Prospecting Industry, 7610 Meteorological Services  7673 Planning Management  

**III. Accuracy of dataset/atlas**

**i. Time frequency**
Disaster Risk Reduction Knowledge Service of IKCEST

(Time frequency is the representation content of datasets/atlas’ time frequency, such as multi-year average, average, monthly, daily, yearly, month by month, day or hour.)

ii. Spatial reference, accuracy, and granularity
(This part is the spatial reference, accuracy, and granularity of datasets/atlas. The spatial reference includes coordinate system, projection mode, elevation system, etc. Spatial accuracy means the vector data scale or raster data resolution, etc. Spatial granularity is in accordance with the continent, the state, province, county, and other divisions.)

IV. Dataset/atlas storage management
i. Data quantity
0.0103MB

ii. Type format
The dataset is stored in the hard disk and it is table data

iii. Update management
Dataset update plan: Aperiodic updating.

V. Quality control of the dataset/atlas
i. Production mode
Data of hot-dry wind and high temperature disaster in Beijing in (1960-2018) was obtained based on National Meteorological Information Center http://data.cma.cn/
China Meteorological Calamity Code (Beijing volume)
China Meteorological Disaster Yearbook(2005-2016) and electronic, digital, integrated conversion, standardized processing, computational simulation.

ii. Data sources (condition selection)
iii. Methods of the data acquisition and processing (condition selection)

Acquisition method: Book sorting on the net and field survey.
Processing method: Data registration and Object-oriented classification method.

VI. Sharing and usage method of the dataset/atlas

i. Sharing methods and restrictions

Fully opened sharing

ii. Contact information of the sharing service (condition selection)

Contact Information for Service: No. 46, Zhongguancun South Street, Haidian District, Beijing

iii. Conditions and methods of usage

The dataset can be read by excel software

VII. Intellectual property rights of the dataset/atlas

i. Property rights (optional)

Dataset ownership information: Institute of Geographic Sciences and Natural Resources Research, CAS

ii. Reference method of the dataset/atlas

<Hot-dry Wind and High Temperature in Beijing Dataset>Institute of Geographic Sciences and Natural Resources Research, CAS>

iii. Usage contacts of the datasets/atlas

Name: Service group of Disaster Risk Reduction Knowledge Service System of IKCEST
Address: A11 Datun Road, Chaoyang District, Beijing.
Postcode: 100101
Telephone: 010-64889048-8006
Email: ikcest-drr@lreis.ac.cn

VIII. Others (optional)

In addition to the above, other information must also be explained.
